REMARKS _____

25X1C

Between 11 a.m. and 3 p.m. on 26 November 1951, 32 ground attack aircraft were observed at Stendal-Borstel airfield. Take-offs were made by pairs of aircraft which circled twice over the field at an altitude of 600 meters. The planes flew for 15 minutes. Some retracted their landing gears while others flew with extended landing gears. Eight planes which had been parked 100 meters south of the hangars were towed to the take-off point on the southern edge of the field. A radio truck with an extended antenna was observed 100 meters southwest of the take-off point. _____

25X1

_____. There was no flying at the field on 1 December. *

25X1A * _____ Comment. It is believed that no change has occurred in the occupation of Stendal-Borstel airfield. _____, one ground attack regiment and one air reconnaissance regiment are stationed there. Both units are equipped with ground attack planes.
